# Call for Mathematics Münster Short-term Scholarships

Secure your scholarship and visit Mathematics Münster for several months!

Mathematics Münster is offering scholarships for interested master's students to visit Mathematics Münster for up to six months. Students will have the opportunity to prepare their master's thesis or a related research project under the mentorship of one of the several distinguished researchers in different areas of mathematics, in a friendly and stimulating environment.

## WHO CAN APPLY?

Master's students who have already completed at least one year in their home institution. In view of the international mobility goals of this initiative, applicants are only eligible if they have not spent more than 12 months within the last 3 years in Germany.

## WHAT CAN BE FUNDED?

Research stays in preparation of the master's thesis, or a related research project for a period of two to six months. Funds may cover a monthly payment, semester fees and travel allowance, depending on the country of origin and other potential sources of funding.

**Apply now until 15 November 2025**  
**for projects starting between January and June 2026.**
